SUMMARY

I am a driven web developer looking for challenging projects and a great team to work with. I am a life-long learner with excellent critical thinking skills and a systematic approach to solving problems.

SKILLS

Front End: JavaScript ES6, React, jQuery, Git, Express, Python, HTML, CSS
Back End: RESTful APIs, PostgreSQL, Node.js

PROJECTS

YearPrism | *Front End* | *Back End*
- Store all your major life events in this easy to use app. View events by year or by category and make notes about each event to remember valuable information you might forget years from now
- Tech: React, JavaScript, Node.js, Express, PostgreSQL and CSS

Ultimate Tutor | *Front End* | *Back End*
- If you play Magic: The Gathering you will enjoy this app. Create your own account and build decks online and search for the perfect cards to add to your deck.
- Tech: React, JavaScript, Node.js, Express, PostgreSQL and CSS

Celebrity Cocktail Party | *GitHub*
- A web app for planning your very own cocktail party. Using two different APIs for searching for cocktails and appetizers for your party. Then using a random celebrity generator you can give each guest a new celebrity name.
- Tech: HTML5, CSS3 and jQuery

EDUCATION

THINKFUL   Feb 2020
Full Stack Web Development
- Self-paced program working with a mentor on a weekly basis to grow my skills as a web developer.
- Utilized my persistence, resourcefulness, and creativity to build my projects

Globe University
Veterinary Technology   Dec 2017
- 3.8 GPA

WORK HISTORY

Animal Emergency and Referral Center | Oakdale, MN
Certified Veterinary Technician   July 2017 – Nov 2019
- Accurately prepared and administered medications and cared for patients recovering from anesthesia.
- Documented all procedures performed and successfully explained complex biological concepts to clients.
